NBI Senior Fellows Program

NBI Senior Fellows are industry luminaries that have provided a significant contribution to energy efficiency and carbon reduction through their leadership, dedication, and ground breaking work. These energy efficiency and green building leaders can serve as ambassadors, representing and supporting NBI's mission and collaborating with NBI partners to advance energy efficiency and carbon emissions reductions throughout the built environment.

Requirements for NBI Senior Fellows

SKILLS AND KNOWLEDGE FOCUS. Combine strategic business and professional knowledge with experience; provide insights from understanding functional and business realities and industry needs.

COLLABORATIVE RELATIONSHIP WITH MARKET. Partners with and shapes the thinking of influential thought leaders and implementers.

IMPACTS AND MEASURES. Demonstrates impacts with functions across their organization and externally. Identifies key indicators of value and strategic objectives.

INDUSTRY REPRESENTATION AND DIVERSITY. Represents a cross section of individuals involved with improving the built environment. Does not have current conflict or competition with NBI.

NBI ENGAGEMENT. Supports NBI's mission and promotes our work. Attends one to two NBI Senior Fellow events per year. Participates in two conference calls per year. Responds to requests to independently (or in coordination with other Senior Fellows) advise NBI, provide market insight, or participate in NBI webinars or other events.

TRANSFORMATIVE. Has made significant contributions to industry thought leadership either directly or indirectly through their work.

Senior Fellows since 2020

Bronwyn Barry, Board President, North American Passive House Network (NAPHN)

David Kaneda, Principal, IDeAs Consulting

David Hewitt, *Retired* New Buildings Institute

RK Stewart, FAIA

Benefits of Fellowship

- Connect and engage with a select group of influential market leaders.
- Demonstrate to the market that you meet the highest standards of excellence in our industry.
- Use of a professional designation and logo.
- Access to NBI research.
- Cross promotion of Senior Fellow's work by NBI.

nbi new buildings
institute

New Buildings Institute (NBI) is a nonprofit organization driving better energy performance in buildings to make them better for people and the environment. We work collaboratively with industry market players—governments, utilities, energy efficiency advocates, and building professionals—to promote advanced design practices, innovative technologies, public policies, and programs that improve energy efficiency.
