THE SWITCH IS ON
California and Washington

SWITCHING TO ELECTRIC IS BETTER THAN EVER.

[Learn More](#)

Why Switch To Electric
Switching from gas to electric for cooking and heating can significantly contribute to local air pollution and climate change. Electrifying your home by replacing gas appliances with modern electric appliances helps you live in a cleaner and healthier environment.

REWIRING AMERICA

Your situation is unique. Your plan to go electric should be, too.

Interested in upgrading your home to all-electric appliances and vehicles? Generate a personalized electrification plan based on your particular home, lifestyle, and priorities — all in just a few minutes.
